20 Wallace Road Phoenix, NY 13135 (315)-214-1889 (Cell)

## Education

B.S., Physics, Mathematics, Computer Science SUNY Oswego - GPA 3.68

anticipated 2017

New York State Advanced Regents Diploma with Honors John C. Birdlebough High School - GPA 91 2012

## Internships

See this interview about my internships and tutoring SUNY Oswego.

## Software Engineer - NASA Jet Propulsion Laboratory

The Deep Space Network consists of multiple antennae on Earth which communicate with space craft beyond the moon. In order to improve this process, NASA software engineers are developing a new software to generate files read by the antennae, however they must check that the new software does not generate files with errors. My project at JPL was to develop a diff tool using node.js which would compare these files, and display differences, which the users could flag as unimportant differences, or more imporantly find defects in the products of their software.

Mentor: Mark Johnston Summer 2015

# Research Experience

### An Asteroseismic Analysis of the Red Giant Branch Bump

As an intern the Max-Planck Institute for Solar System Research in Göttingen, Germany I studied how asterosesmic parameters were effected during the RGB bump. I used the MESA stellar evolution code to generate tracks of models of stars with varying masses, then used ADIPLS to calculate the frequencies they would output as the stars passed through the bump.

Advisors: Saskia Hekker, Earl Bellinger, George Angelou Summer 2016

#### The Application of Abstract Algebra to Twisty Puzzles

Rubik's Cubes have fascinated mathematicians ever since they made their debut in the 1970s. Since then, many differently shaped and sized variants of the Rubik's Cube (called

twisty puzzles) have become available. In this research I applied concepts I learned in Abstract Algebra to describe these fascinating puzzles. I also worked on a design for a puzzle which I have created, and 3D-printed thanks to SUNY Oswego's SCAC grant.

Advisors: Bonita Graham, David Vampola

Fall 2014 - Present

### Fourier Decomposition Analysis of CSTAR RR Lyrae Variable Stars

I began this research through a 6 week visit to India in summer 2014. My original, and now completed, goal was to determine the metallicities of several RR Lyrae variable stars. Advisor: Shashi Kanbur

Summer 2014 - Present

## **Teaching**

### Math Club Tutoring

2015-Present

Organized and participated in free Math Club tutoring sessions for Calculus students.

#### Math and Sciences Tutor at SUNY Oswego

2014-Present

Courses Tutored: Calculus 1, 2 and 3, Discrete Math, Physics 1 and 2, CS intro level

## HON 150 Seminar Leader at SUNY Oswego

Fall 2014

Prepared and presented weekly lectures for an introduction-to-college course. Created and Graded weekly writing assignments.

#### **Talks**

A New Cube. MAA Seaway Section Meeting, SUNY Geneseeo	2016
The Invention of a Cube. Quest, SUNY Oswego	2016
A Necessary Set of Turns to Solve a Rubik's Cube. MAA Seaway Section Meeting, Colgate University	2015
The Necessity and Sufficiency of 5 Face Turns to Solve a Rubik's Cube. Quest, SUNY Oswego	2015
RR Lyrae Metallicities from CSTAR data. Quest, SUNY Oswego	2015
Fourier Analysis of CSTAR RR Lyrae Variable Stars. Rochestor Symposium for Physics Students, SUNY Oswego	2015
Metallicity determination for RR Lyraes observed from CSTAR telescopes in Anta SUNY Undergraduate Research Conference, SUNY Brockport	arctica. 2015
The Line Trick to Multiplying Numbers and Polynomials. Math Club, SUNY Oswego	2015

# Honors

Honors Program - SUNY Oswego		2012-Present	
Presidential Scholarship for Academic Achievement -	- SUNY Oswego	2012-Present	
Student Involvement Award - SUNY Oswego		Spring 2015	
Sigma Xi and Office for Research and Sponsored Research Presentation - SUNY Oswego	Programs Award for	Excellence in Spring 2015	
Dean's List - SUNY Oswego	Fall 2014	4 - Spring 2015	
President's List - SUNY Oswego	Fall 2012 - Fall 201	3, Spring 2016	
Youth of the Year - John C. Birdlebough High School	ol	2012	
Presidential Community Service Award - Corporation for National and Community			
Service		2012	
Senior Key in Mathematics - John C. Birdlebough H	Iigh School	2012	
Eagle Scout - Boy Scouts of America		2011	

# Membership

SUNY Oswego Physics Club	2014-Present
SUNY Oswego Astronomy Club - Treasurer	2013-Present
SUNY Oswego Math Club - President	2012-Present
Omicron Delta Kappa National Leadership Honor Society	Inducted 2015
Phi Kappa Phi National Honor Society	Inducted 2014
National Honor Society	Inducted 2010
Tri-M Music National Honor Society	Inducted 2010
John C. Birdlebough HS Student Council - President	2010-2012
Boy Scouts of America - $Quarter master$ , $Assistant\ Senior\ Patrol\ Leader$	1999-2012

# Skills

Mac and Linux Proficient

Proficient in Bash, Python, Java, Fortran, LATEX, C/C++, Javascript, and HTML/CSS Rubik's Cube Speed Solver

Last updated: October 24, 2016
