20 Wallace Road Phoenix, NY 13135 (315)-214-1889 (Cell)

Education

B.S., Physics, Mathematics, Computer Science SUNY Oswego - GPA 3.68

anticipated 2017

New York State Advanced Regents Diploma with Honors John C. Birdlebough High School - GPA 91/100

2012

Internships

See this interview about my internships and tutoring SUNY Oswego.

Software Engineer - NASA Jet Propulsion Laboratory

The Deep Space Network consists of multiple antennae on Earth which communicate with space craft beyond the moon. In order to improve this process, NASA software engineers are developing a new software to generate files read by the antennae, however they must check that the new software does not generate files with errors. My project at JPL was to develop a diff tool using node.js which would compare these files, and display differences, which the users could flag as unimportant differences, or more imporantly find defects in the products of their software.

Mentor: Mark Johnston Summer 2015

Research Experience

An Asteroseismic Analysis of the Red Giant Branch Bump

As an intern in SAGE at Max-Planck Institute for Solar System Research in Göttingen, Germany I studied how asterosesmic parameters were effected during the RGB bump. I used the MESA stellar evolution code to generate tracks of models of stars with varying masses, then used ADIPLS to calculate the frequencies they would output as the stars passed through the bump.

Advisors: Saskia Hekker, Earl Bellinger, George Angelou Summer 2016

The Application of Abstract Algebra to Twisty Puzzles

Rubik's Cubes have fascinated mathematicians ever since they made their debut in the 1970s. Since then, many differently shaped and sized variants of the Rubik's Cube (called twisty puzzles) have become available. In this research I applied concepts I learned in Abstract Algebra to describe these fascinating puzzles. I also worked on a design for a puzzle which I have created, and 3D-printed thanks to SUNY Oswego's SCAC grant.

Advisors: Bonita Graham, David Vampola

Fall 2014 - Present

Fourier Decomposition Analysis of CSTAR RR Lyrae Variable Stars

I began this research through a 6 week visit to India in summer 2014. My original, and now completed, goal was to determine the metallicities of several RR Lyrae variable stars. Advisor: **Shashi Kanbur**Summer 2014 - Present

Teaching

Math Club Tutoring

2015-Present

Organized and participated in free Math Club tutoring sessions for Calculus students.

Math and Sciences Tutor at SUNY Oswego

2014-Present

Courses Tutored: Calculus 1, 2 and 3, Discrete Math, Physics 1 and 2, CS intro level

HON 150 Seminar Leader at SUNY Oswego

Fall 2014

Prepared and presented weekly lectures for an introduction-to-college course. Created and Graded weekly writing assignments.

Talks

| A New Cube. MAA Seaway Section Meeting, SUNY Geneseeo | 2016 |
|---|---------------|
| The Invention of a Cube. Quest, SUNY Oswego | 2016 |
| A Necessary Set of Turns to Solve a Rubik's Cube. MAA Seaway Section Meeting, Colgate University | 2015 |
| The Necessity and Sufficiency of 5 Face Turns to Solve a Rubik's Cube. Quest, SUNY Oswego | 2015 |
| RR Lyrae Metallicities from CSTAR data. Quest, SUNY Oswego | 2015 |
| Fourier Analysis of CSTAR RR Lyrae Variable Stars. Rochestor Symposium for Physics Students, SUNY Oswego | 2015 |
| Metallicity determination for RR Lyraes observed from CSTAR telescopes in Anta SUNY Undergraduate Research Conference, SUNY Brockport | urctica. 2015 |

Honors

| Honors Program - SUNY Oswego | 2012-Present | |
|---|---------------------------------|--|
| Presidential Scholarship for Academic Achievement - SUNY Oswego | 2012-2016 | |
| Student Involvement Award - SUNY Oswego | Spring 2015 | |
| Sigma Xi and Office for Research and Sponsored Programs Award for Research Presentation - SUNY Oswego | or Excellence in Spring 2015 | |
| Dean's List - SUNY Oswego Fall 202 | 14 - Spring 2015 | |
| President's List - SUNY Oswego Fall 2012 - Fall 20 | 013, Spring 2016 | |
| Youth of the Year - John C. Birdlebough High School | 2012 | |
| Presidential Community Service Award - Corporation for National and Community Service 2012 | | |
| Senior Key in Mathematics - John C. Birdlebough High School | 2012 | |
| Eagle Scout - Boy Scouts of America | 2011 | |

Membership

| SUNY Oswego Physics Club | 2014-Present |
|--|---------------|
| SUNY Oswego Astronomy Club - Treasurer | 2013-Present |
| SUNY Oswego Math Club - President | 2012-Present |
| Omicron Delta Kappa National Leadership Honor Society | Inducted 2015 |
| Phi Kappa Phi National Honor Society | Inducted 2014 |
| National Honor Society | Inducted 2010 |
| Tri-M Music National Honor Society | Inducted 2010 |
| John C. Birdlebough HS Student Council - President | 2010-2012 |
| Boy Scouts of America - $Quarter master,\ Assistant\ Senior\ Patrol\ Leader$ | 1999-2012 |

Skills

Mac and Linux Proficient
Proficient in Bash, Python, Java, Fortran, LATEX, C/C++, Javascript, and HTML/CSS
Rubik's Cube Speed Solver

Last updated: November 6, 2016
